Attributes Description

Module for PrestaShop v.1.4 o higher

This module for PrestaShop allows you to add a description for each attribute of their products in all languages.

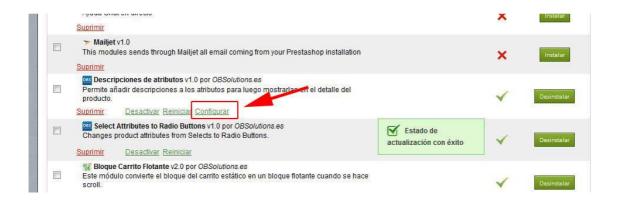

Module Instalation

To install the module, you should go to 'modules' tab of the Prestashop's back office and select 'Add a module from my computer'. It'll open a window where you'll be able to select the downloaded ZIP file. Then, click on the button 'Upload this module'.

Administration

Once installed and activated the module, you must access the same settings accessed from the link 'Set' that accompanies the module.

Once inside the settings, follow the steps to enter each attribute descriptions in all languages of your store.

Styles

You can edit the styles of the module by modifying the file included in the module folder styles /CSS.
